The main threats to the Sumatran rhino are habitat loss and poaching. The Sumatran rhino's habitat is being destroyed by deforestation, which is caused by logging, mining, and agriculture. Poaching is also a major threat to the Sumatran rhino, as its horn is highly valued in traditional Chinese medicine.

The WWF is working to save the Sumatran rhino from extinction. The WWF is working to protect the Sumatran rhino's habitat, and it is also working to combat poaching. The WWF is also working to raise awareness of the Sumatran rhino and its plight.

You can help the WWF save the Sumatran rhino by donating to the WWF, by spreading the word about the Sumatran rhino, and by taking action to reduce your impact on the environment.

### **Here are some specific things you can do to help:**

- Donate to the WWF to support its work to save the Sumatran rhino.
- Spread the word about the Sumatran rhino and its plight.
- Take action to reduce your impact on the environment, such as reducing your consumption of paper and wood products, and choosing products that are made from sustainable materials.
- Support organizations that are working to protect the Sumatran rhino, such as the WWF.

The Sumatran rhino is a beautiful and iconic species that is on the brink of extinction. The WWF is working to save the Sumatran rhino from extinction, and you can help. Join the quest to save the rarest dragon on Earth.
