What is a Square Face Shape?

A square face shape is characterized by a strong jawline that is about the same width as your forehead. Your cheekbones are also likely to be high and prominent, and your chin is probably square or slightly pointed. If you have a square face shape, you may also have a wide forehead and a narrow chin.

The Best Haircuts for Square Faces

When choosing a haircut for a square face, you want to opt for styles that will soften your features and create a more balanced look. Here are a few of the best haircuts for square faces:

- **Bob haircuts** are a great choice for square faces because they help to soften the jawline and create a more feminine look. Bobs can be worn at a variety of lengths, from short and sassy to long and flowing. If you have a square face, opt for a bob that is shoulder-length or longer.
- **Layered haircuts** are another great option for square faces. Layers help to add volume and movement to the hair, which can help to soften the jawline and create a more balanced look. Layers can be added to any type of haircut, from bobs to long, flowing locks.
- **Asymmetrical haircuts** are a great way to add interest and personality to a square face. Asymmetrical haircuts can be worn on any length of hair, and they can be customized to suit your individual style. If you have a square face, try an asymmetrical bob or pixie cut.
- **Curly haircuts** can help to add volume and movement to the hair, which can help to soften the jawline and create a more balanced look. Curly hair can be worn in a variety of styles, from short and sassy to long and flowing. If you have curly hair, try a curly bob or pixie cut.

How to Style Your Hair for a Square Face

In addition to choosing the right haircut, there are a few things you can do to style your hair to flatter your square face shape. Here are a few tips:

- **Add volume to the top of your head.** This will help to balance out the width of your jawline.

- **Keep the sides of your hair short.** This will help to soften the jawline and create a more balanced look.
- **Avoid blunt bangs.** Blunt bangs can make a square face look even more square.
- **Opt for side-swept bangs instead.** Side-swept bangs can help to soften the jawline and create a more feminine look.

If you have a square face shape, don't despair! There are plenty of haircuts that can flatter your features and create a more balanced look. With the right haircut and styling, you can achieve a beautiful and stylish look that will make you feel confident and radiant.
